GENERAL INFORMATION ABOUT JAKARTA

WEATHER

Jakarta is always hot and humid (32C+) and tropical showers (ie: intense but relatively short-lived) are to be expected. The library ('an oasis in the crowded city – great views of the city and the National Monument from the rooftop) is air-conditioned but this can be fierce (especially in contrast to outside) so long sleeves or a shawl/wrap may be advisable.

FOOD

Lunch and two breaks during both Conference days are included. You are spoilt for choice in terms of local foods – as Indonesia has over 17000 islands there are so many different local cuisines for you to choose. Please exercise caution when sampling street food (unless you have an Indonesian Conference friend to advise you! Restaurants that are halal will not serve any pork dishes, but there are countless Chinese and western-style restaurants that do.

ELECTRICITY

Electricity is 230v. Most power plugs and sockets in Indonesia are type C and F. [See what C & F look like](#)

WATER

Please drink only bottled water or tap water that has been filtered and boiled.

MONEY

The currency is the Indonesian Rupiah (Rp). As of 31 May, the exchange rates are:

1 US\$ = 15,000 IDR

1 Euro = 16,000 IDR

1 SGD\$ = 11,000 IDR

100 Indian Rupee = 18,130 IDR

HOW TO REGISTER IMEI

Tourists who are going to stay less than 3 months in Indonesia, will be able to acquire a SIM card called Telkomsel Pralaya or Telkomsel Tourist Card, which will work for 3 months, and the same company of the telephone company will be able to register the IMEI of your phone.

It is important to take into account that these cards must be bought/registered in the official stores of the mobile phone operator that you can find at the airport or in the city, and not in street stalls (because they often will not know how to register it correctly and you will end up acquiring a card that does not work). To register, you need your passport and your mobile phone.

The prices of these cards are around Rs 200,000 / 300,000 depending on the number of gigabytes of data you have. The registration is valid for 90 days, but the data will only be valid for 30 days, if the data runs out you can buy more without any problem.
